## APICS SCOR-P

This three-day course has been created to respond to the needs of professionals new to the Supply Chain Operations Reference (SCOR) framework and implementation body of knowledge. Based on a solid repository of improvement program metrics and processes, SCOR has evolved to become an important performance management tool for companies seeking to elevate their supply chain performance. This course has been specifically designed to provide all types of professionals involved with supply chain:

1. Foundation knowledge of the SCOR Model Reference framework.
2. An understanding of how a supply chain performance team would utilize SCOR in an improvement program.
3. A comprehensive outline of the phases of a typical SCOR improvement program.

Completion of the SCOR Professional Training course massively improves participants' knowledge and ability to utilize the SCOR framework and body of knowledge.

## Visie Partners

Visie Partners is specialized in supply chain courses. We only offer courses in the field of Operations Management, Supply Chain Management, and Purchasing Management that have a high international reputation. We offer our courses with the following options: teaching in class, in-company, and e-learning. We aim and try to transfer our knowledge to our course participants. We achieve this by only having experienced teachers and an ongoing focus on development and innovation.

With our study programs we use the following core values:

- The course is always in the same place on the same day and time.
- Using only official course material from the course's institute .
- All courses can be given in Dutch or English.
- All our teachers follow a training program to continuously improve their teaching skills and are certified for the course they teach.

## APICS

Since 1957 the American APICS (Association for Operations Management) has been the standard for courses in operations and supply chain management.

APICS is a leading supplier for research, education and certification programs. With more than 45,000 members and training partners worldwide, APICS determines the way people work and do business globally. APICS's programs are regularly improved based on trends and developments to meet the demand of course participants. APICS terminology is the standard for software producers for production planning and control. This includes IT companies such as SAP, Oracle, QAD, and Exact.

Visie Partners is the **Premier Channel Partner** of APICS in the Netherlands. Premier Channel Partners are distinguished from Channel Partners by the quality of their teachers, the dedication to the APICS community, the number of trained professionals and they work according to the APICS guidelines.

# Suitable for

APICS SCOR-P education is essential if you are involved in improving business processes from the following organizational functions:

- Production management
- Operations
- Supply chain management
- Procurement
- Materials management
- Inventory management

## Benefits

An APICS SCOR-P endorsement will help you:

- Establish benchmarks for evaluating supply chain effectiveness
- Provide real-world techniques for measuring and managing a global supply chain
- Provide a practical method for assessing the skills and competencies of your current supply chain team members and recruits
- Dramatically increase supply chain improvement and performance

## Course prerequisites

There are no prerequisites for this course. Participants should possess general mathematical, project management and business skills.

## Study types

The SCOR-P training is a 3-day interactive class training. During the course active participation in the training activities is encouraged. This will support the participants in learning to apply the SCOR elements in process improvements in order to become more competitive.

## Course material

Participants receive a course workbook. The workbook provides:

- Detailed information for discussion topics
- All PowerPoint slides during the seminar
- Practice exercises
- Content review questions

## Prices and planning

You can find the course prices and planning on our website: [www.visiepartners.nl](http://www.visiepartners.nl) on the courses page. This is listed underneath the APICS SCOR-P course.

## Study load

**Thank you very much for reading this brochure.**

The duration of the course is three days. Total study load is typically between 40 and 60 hours including the time for attending the course.

**In case that not all questions have been answered you can contact us**

## Exam

One Authorization to Test (ATT) for the SCOR-P endorsement exam is included in your SCOR-P training registration purchase. Candidates may purchase a SCOR-P retake exam for an additional fee. You can take the exam at about 30 test centers in the Netherlands and hundreds in Europe.
